

## English *Work Study* Placements - More than the sum of their parts!

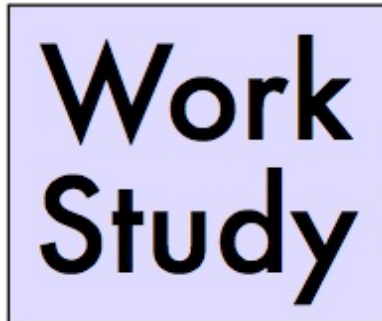

Sometimes, it is difficult to know what to do. Should you invest your time and money in a really good English course - to prepare yourself for the global world of work - or should you get some work experience to improve your chances of getting a full time job?

Well, now you can do both. With HELLO Work Study, you get the best of both worlds!

Our Work Study students study in the morning and work in a local company in the afternoon. So, they benefit from a structured language programme and they use their English in a real job placement.

Work Study puts your learning to work. Surely the best way to improve your English.
